

FILIPINOS REPULSED.

Made an Attack on Americans at Marilao and Defeated With Heavy Loss.

Our Loss Was Ten Killed and About Twenty Wounded, Two of Them Mortally.

Col. Egbert, Formerly of the 6th Infantry, Killed in Battle Saturday.

The Gallant Officer Slain While in the Saddle—"I Must Die, I'm Too Old," He Gaspd.

The Helms and the Army Commanded Shelled the Town of Marilao and Country Beyond.

The Machine Guns Ate the Bullets of the American Forces.

MANILA, March 27.—The movement of the American troops Saturday against the insurgents back toward Marilao. Gen. Harrison Gray's brigade is a force of 14,000 men, where there is a stretch of a mile of rough, open country. The insurgent trenches, in the edge of the woods are four feet deep and furnish a good head cover. The American troops advanced on the double quick, pushing forward and over a shallowly dropping in the grass and firing by volley.

At daylight Gen. Otis and Gen. Hale's brigades advanced from the hills straight through the hills, cutting the enemy's forces in two.

Upon this occasion the rebels adopted the American tactics of holding their fire until the attackers were about 1,000 yards distant. The rebels also fired lower than usual. The Americans fired volleys with terrible effect and then rushed forward clearing and carrying everything before them.

Gen. Wheaton's brigade, in accordance with instructions, remained in the trenches. Before joining in the movement, at noon, Gen. Wheaton's troops developed a strong disposition between Marilao and the River Tula-huan.

The brigades commanded by Gen. Harrison Gray and Gen. Hale advanced on Nivalocles and Polo, strongly entrenched towns.

The natives stood until the Americans were within 200 yards of their position and then broke and ran to the woods. About 20 of them were killed in the pursuit and 50 on the road.

Ninety natives after the start at 6 o'clock—the whole force for a distance of three miles to the north had been cleared. Gen. Hale's brigade was simultaneously swept in a northwest-easterly direction, routing the enemy and burning the town of San Francisco del Monte and a number of scattered huts.

The natives fled in the direction of the artillery advancing along a good road from La Loma to Nivalocles, the wagons carrying pontons, telegraph supplies and ammunition following.

The infantry moved in epidemic order. The Pennsylvania troops took nine prisoners, among them a great scout captain of the Maabache tribe and one Japanese. All the prisoners were greatly terrified, expecting to be executed immediately.

The American losses, reported up to noon Saturday, were eight men killed and about 50 men wounded.

The loss of the enemy was heavier than during any previous engagement. It was stated at the war department that the expression of Gen. Otis, "An endeavoring to take fraction in reverse," means that while ostensibly minding a feat at the front that he intends to swing to the rear and attack the enemy on the left. The dispatches of Gen. Otis are forwarded to President McKinley as soon as received at the war department.

War department officials do not attempt to conceal their belief that the fighting has been very severe and that the American losses are no doubt quite heavy.

MANILA, March 28.—The Americans have advanced along the line of the Dagupan railroad, driving the Filipinos from Marilao and New Canay, where there were 3,000 inhabitants. Sunday night the brigades of Gen. Harrison Gray and Gen. Hale encamped in the enemy's trenches at New Canay and that of Gen. Wheaton at Marilao.

The movement of the Americans will be pushed in this direction.

Ten soldiers of the Oregon regiment, while searching for two of those killed earlier in the fighting, straggled into the city in the morning and found the place in a condition of chaos. The inhabitants, seeing them, fled in a panic.

thinking the American forces were in possession. The Oregonians shot several armed natives and then returned to camp.

The Americans Monday morning found the important town of Polo and a number of small villages west of the railroad deserted and in flames. They are advancing along the railroad.

Monday the Washington volunteers, who left Manila Sunday, had an engagement with a band of insurgents who drove in their outposts. In the fight the Filipinos lost several men.

The United States troops, under Brig. Gen. Lloyd Wheaton, captured the town of Marilao, beyond the Tula-huan river, Sunday, after a sharp fight. Col. Henry C. Egbert, of the 2nd regular infantry, was killed. Prince Lowenstein, formerly aide-de-camp on the staff of Brig. Gen. Miller, at Iloilo, somehow got in front of the firing line and was shot in the side, dying almost instantly. A German, who accompanied him, was wounded.

Evenly anticipating a bombardment by the fleet, a thousand rebels vacated Marilao Sunday night, leaving a few to burn the town. Gen. Wheaton's brigade, composed of the 2d Oregon regiment and the 2d and 3d Infantry, stretched out along the railroad from Calabuan to the Tula-huan river, was powerless to prevent the withdrawal toward the natural obstacles and to the hills beyond.

On Monday morning the rebels destroyed the center of the town was a large double church, but even at noon fresh fires were started among the native huts in the outskirts of Marilao, although the general evacuation took place much earlier. Many of the rebels sought refuge in the suburbs of Nivalocles and Cagay, or were driven inland by the shells of the Helena, Talos, Nungnapan and Laguna de Bay.

Occasionally the artillery and infantry fired across the stream. Finally the engineers moved a construction train up to the bridge, the iron frame

After lunch Gen. MacArthur's division advanced toward Polo. The 3d Oregon regiment encountered a thousand Filipinos west of Marilao who were retreating from Marilao. The enemy had taken up a position in the railroad, and the Filipinos hid four rows of interminable trenches, which were driven out after an hour's very heavy fighting. One Oregonian was killed and five were wounded.

MANILA, March 28.—The Helena and the army gunboats shelled Marilao and the country beyond, while the Monastnock focused all its batteries upon Paraque for two hours for the purpose of destroying the military stores there. A great smoke was caused, but as the insurgents are in possession of the town, the results of the shelling are not obtainable. The evacuation of Marilao was a picture of the thousands of men, women and children, loaded down with household goods, fleeing to the country.

The Filipinos are pushing toward Marilao. The insurgents will make their last stand probably at Marilao.

New York, March 28.—A dispatch to the Herald from Manila Tuesday says:

The puntal Laguna de Bay attacked the insurgents at Marilao. Three Americans were wounded.

MacArthur's division has crossed the Marilao river and is advancing northward.

The insurgents attacked the American forces Sunday evening at Marilao. They were repulsed with severe loss. One was killed and 11 wounded.

Latter, a native general, called down from Baguio by train 60,000 riflemen and 1,000 machine guns took position at Marilao. A river was between the American and insurgent forces.

The South Dakota volunteers and the 3d artillery, acting as infantry, were thrown forward. The South Dakotas charged brilliantly across the

open space on the east of the railroad to the edge of some woods. They were killed and 11 wounded. Including three lieutenants.

The 3d artillery, on the right of the railroad, charged and lost nine men wounded, two mortally.

On the left, the insurgents, in a trench, east of the river, offered a stubborn resistance. Lt. Critchlow, with two guns, the 1st battery, and Lieut. D. with a navy cut gun, forced the insurgents in a long trench on the opposite side of the river to surrender at the close quarters of 100 yds. The rest of the insurgents got by with severe loss. Ninety dead in general were counted.

MANILA, March 28.—Gen. Art's division spent Sunday night and Monday morning at Naykawayan, the station beyond Polo. After reentering his front, he pushed along a railroad yesterday afternoon toward Marilao. If the statement of the press of thirty-five prisoners Monastnock, the main body of the enemy returned to Marilao. But there are more trenches to encounter, although near thirty villages, including larger settlements of Marilao.

At every railroad station there have been posted, signed by the Filipino commander-in-chief, Antonio, ordering all spies and carriers new to the enemy to be shot on sight and instructing that all spies and carriers be treated in the same manner. Further, all towns along the line of the railroad are to be burned.

While deplored the existence of the civil war, the Filipino to the war, the civilian maintains the undeniable right of the Filipino to defend their homes, lives and lands against

"would-be dominators who would kill them, their wives and children," adding that a motive ought to inspire all Filipinos to sacrifice everything.

The shelling of Paraque was not unaccompanied. The turret ship Monastnock, instead of the town and the insurgents, consolidated by the long silence of the war ships on guard duty, opened fire on her with muskets, and three were wounded. The Monastnock then destroyed half the town, including the church.

American forces advanced from Marilao (not Naykawayan), the brigade commander, Gen. Harrison Gray, was on the left of the railroad, and Gen. Hale on the right. The eventually dispersed white rods and spears among the green trees beyond the river looking not unlike a Massachussetts village.

The rebels had an unfavorable river in front of them and they poured in a fire effective that it showed that they were veterans, probably members of the native militia, the Spaniards.

The American artillery put a dramatic end to the battle. Approaching under cover of the bushes, to about 60 paces from the trenches, the artillery emerged upon an open space commanding the town. When the Americans appeared, they gave a great yell and the Filipinos were panicked, about 100,000 men fled in flight, while a white flag was raised by those who were in the trenches, who also shouted "Amigos."

Gen. Hamilton, with 20 men of the Kansas regiment, swam across the river to the left of the railroad bridge, captured 50 prisoners with all the arms.

The Pennsylvania regiment captured 50 prisoners.

In the time the right of the Filipinos was decided.

MANILA, March 28.—Advised received by the war department that the casualties in Saturday's and Sunday's fighting were: Killed, three officers and 25 enlisted men; wounded, 10 officers and 200 enlisted men.

THE EDDY SAVED THEM.

Two Refugees Have a Close Call From a Fatal Plunge at Cumberland Falls. "Kensley's Niagara."

DANVILLE, Ky., March 28.—Louis Meadows and Marsh Wyatt, of Mesquite, had a narrow escape from a plunge over Cumberland falls, "Kensley's Niagara." They were in charge of a raft containing 30,000 shingles, and at the point where the raft was to have been turned toward shore to escape the rushing current leading to the falls it became unmanageable, and the two men were forced to jump into the stream. They had a terrific battle with the current, but a lucky chance threw them into an eddy, and some men from the company came to their rescue and pulled them out. The raft and its burden of thousands of shingles struck the falls, shot out and fell to the water, nearly 100 feet below, where the structure went to pieces and was lost.

Col. Parent River Bottom.

FRANKFORT, Ky., March 28.—Attorney General Taylor has decided that river bottom lands are pre-emptible, and Saturday delivered an opinion to State Register of Lands Reynolds on the subject. The question was submitted to him by the company of the Cincinnati Waterworks Co., which has purchased several acres of land lying at the bottom of the Ohio river from the company of the Cincinnati Waterworks Co., and for which they demand the state register to issue a patent.

Bound and Robbed.

MORRIS, Ky., March 27.—Friday night four masked men went to the house of Blufford G. Weaver on Dry creek eight miles from Paducah, broke down the door, and seizing Weaver, bound him with ropes. They then helped themselves to his property, carrying away a number of articles, including a watch, a ring, and a pair of shoes. After the robbers were gone Weaver's frightened family released him from his uncomfortable condition. One of the men was recognized, and arrests will follow.

Worthington May Succeed Bradley.

LANSING, Ky., March 28.—It is rumored here now, and the friends of Gov. W. O. Bradley and Lieut. Gov. Worthington seem to think there is considerable probability that Bradley will resign, and that he will be succeeded by Worthington. The friendship between these men is well known, and the governor would not be averse to see his lieutenant succeed him in the place of the chair, for a little while at least.

Whisky Fiasco Told.

LOUISVILLE, Ky., March 28.—The Warlock distillery at Richmond, Madison county, owned by Burman & Bennett, W. S. Hines distillery, in the same county, and the Old Hounour distillery, near Paris, were acquired by the Kentucky Distilleries & Warehouse Co. The distilleries are of a medium capacity, and their brands are well known to the whisky trade. All the money has been paid for the plants and the deals closed. The amounts paid have not yet been given.

Senator Lindsay,

who is one of the best lawyers in Congress, says, that the only way to throttle the Trusts, by Federal legislation, is to "repeal the tariff on every article, the production of which is controlled by the trust." Some people may not think Lindsay orthodox or something, but he is Democratic to the core on this.

Will They Stand It?

The Henderson Gleaner, commenting on the multiplied Trusts that are robbing and plundering the people, suggests that the people have no grounds of complaint as they elected the party that feels the Trusts; and wonders if the people will stand it. Yes, we have grown to believe that the people of the United States, or a majority of them, will stand anything that partisan feeling recommends, even to an entire revolution of our Government.

Cuban Government.

ment will be established in Cuba, really or nominally, of the Cuban people's own choosing, but it is as certain to become a part of the United States as time exists. This belief is entertained by our Government, evidently by all our leading statesmen, irrespective of political parties. Many Cubans really desire annexation now, others know that the powerful hand of the United States is upon them, and that resistance is useless. Besides Cuba is so near our shores that thousands of Americans will populate the island, and in a few years the large majority sentiment will be American. The same will be true of Porto Rico. In regard to the far away Philippines, conditions are very different, and the future as to them belongs with future.

The Philippine War

Almost continuous fighting is in progress in the Philippines, and continuous victories for the Americans so far as they go. The inferior material of the insurgent armies cannot stand before the superior courage, heroism and gains of the Americans. The Philippines fight and run, and so far have risked no decisive battles. Their army is poorly organized, lacking everything necessary to success. Their strongest defense is the approaching wet, not, sickly season. The farther they retreat the more American soldiers will be needed to protect our source of supplies on the southeast. Reinforcements are on the way, and being started. There can be no doubt of ultimate victory for the American, even if it be at the price of the complete extermination of the Philippines. How long the sickly season will delay, or whether the push and dash of the Americans will secure it at once, cannot be seen, but the result is inevitable.

THE old Courier is a democrat, but it had rather see Felton, than any of the present candidates Governor of Kentucky.

—There seems to be no doubt that the peach and, in fact, many of the trees are killed. It is possible there will not be even a bloom on the trees, as the look almost as dead now as there did in winter.

—The needed things in town can be found in Shaw's new department.

—A little reminder sent from Columbia, Ky., signed 43 citizens saying that no case of a murder has been in that town, contrary to the report of Dr. J. W. Moore, has raised the doctor's ire to such an extent that he has sent the series that signed the circular for \$500 damages.

—The Union City Commercial College suggests a public reception to the ladies of Company I, Fourth Tennessee, on their return home from Cuba, which, that paper says, will be in a few days. Several Hickman boys in that regiment, and their return is anxiously awaited by loved ones.

—A young man, Ed. Carter, was arrested at Mayfield, last week, on charge of false swearing. Carter is accused of swearing falsely in order to prevent a divorce in a recent case, but whose father says he is not now twenty-one years old. Truly, the course of true love never did run smooth.

—Bargain Lot Ladies Fine Kid Shoes, \$1.50 and \$2 values go at \$1 at Buchanan's.

—The Mississippi River Commission has allotted \$25,000 for repairing and building levees from Cairo, down, and chief engineer Winslow, in charge of the River's Point Division, has written to Judge Hager, President of the Levee Board at Blue's Point for his views as to how and when the money can be used to the best advantage.

—Mayor Lane, of Paducah, seems to have determined that the people of his town shall be good if they can be made so by preventing them from pursuing their ordinary avocations on Sundays. He has issued a flaming proclamation, that on and after the first Sunday in April all lines of business prohibited by ordinances on Sundays must cease on that day.

—Mr. Hugh Lewis, a brother of Bob and John Lewis of this place died at Hickman, Ky., last Sunday, and was buried here Tuesday. Mr. Lewis had been afflicted with dropsy a long time and had almost recovered when he was attacked with pneumonia which resulted in his death. He was 64 years old and leaves a wife and four children—Mayfield Democrat.

—The Union City Commercial College is cutting the Red-foot Lake overflooded lands of Union county to Lake county, which is asked by Lake for the purpose of building a levee for the protection of such lands. How the improvement and a breeding population of turkeys, forces induced thereby, could injure the general welfare of the people of Union County is not apparent.

—The Courier has never known longer or more continuous talk about "bad roads." In every direction pieces of roads are declared impassable, and all want something done. But what are they going to do about it. For years the same conditions, probably not so bad, have existed, and the result has been no improvement. The people would welcome anything that promises improvement.

—See Buchanan's Easter Military Department. Why wear your old hat out of the American? It can be bought from 50c up.

REPUBLICANS ALARMED.

The St. Paul Pioneer Press, an editorial on "The Trust of Garchy," makes an earnest appeal to the Republican party to take the initiative in breaking down the trusts by a repeal of the tariff, and declares that if the next Congress fails to give the people relief from these "devouring monsters," "mammoth monopolies," "constituting a monstrous majority of humanity," that the Republican party's name is dead. The Pioneer Press is an intemperate Republican paper, but the trouble has caused it to become frightened for the future of the Republican party.

The Chicago Times-Herald, a other Republican organ, says that the trusts are still competing and outbidding prices to manufacturers, and should be regarded as a threat to public policy, and should be shown no mercy by courts and legislatures.

The Pioneer Press declares that it is the duty of the Republican party to repeal every protective duty under the shelter of which its beneficiaries have organized a trust or combination of any sort to advance prices, and the Times Herald says it endorses the view of the Press to a dot.

—Opening week in military circle is always a notable one, and attended by a great deal of gossip and chatter. Who has ordered this hat or that hat, whether it will become here, and a host of other questions present themselves for the consideration of the fair sex. Some women see a hat they like, try on and take it without looking further, and they are much more liable to be added than the woman who runs over town, spends days examining each hat and returns to one she rather "loves to wear," or first only to take that some one else has captured it.

That is the most unkindlest cut of all. The most amusing thing is the woman who wants a hat just because Mr. Jones has one like it, and so she buys it. Possibly Mrs. Jones has a face, figure and style as unlike hers as a turnip, unlike a radish, but she is not so vain. She'll insist on having that hat and wearing it, looking like a fright, instead of leaving the matter to the taste of the milliner who has made a study of adapting styles to faces and knows exactly what size would.

Senator Lindsay,

who is one of the best lawyers in Congress, says, that the only way to shut the trusts, by Federal legislation, is to "repeat the tariff on every article the production of which is controlled by the trust." Some people may not think Lindsay orthodox or something, but he is Democratic to the core on this.

Will They Stand It?

The Henderson Gleason, commenting on the multiplied trusts that are robbing and plundering the people, suggests that the people have no grounds of complaint as they elected the party that feeds the trusts, and wonders if the people will stand it. Yes, we have grown to believe that the people of the United States, or a majority of them, will stand anything that partisan feeling recommends, even to an entire revolution of our Government.

Cuban Government.

It is established in Cuba, really or nominally, of the Cuban people's own choosing, but it is as certain to become a part of the United States as time exists. This belief is sustained by our Government, evidently by our leading statesmen, irrespective of political parties. Many Cubans really desire annexation now, others know that the powerful hand of the United States is upon them and that resistance is useless. Besides Cuba is so near our shores that thousands of Americans will populate the island, and in a few years the large majority sentiment will be American. The same will be true of Porto Rico. In regard to the far away Philippines conditions are very different, and the future as to them belongs with future.

The Philippine War

Almost continuous fighting is in progress in the Philippines, and continuous victories for the Americans so far as they go. The inferior material of the insurgent armies cannot stand before the superior courage, heroism and guts of the Americans. The Philippines fight and run, and so far have risked no decisive battles. Their army is poorly organized, lacking everything necessary to success. Their strongest defense is the approaching wet, hot, sickly season. The further they retreat the more American soldiers will be needed to protect our sources of supplies on the sea coast. Re-enforcements are on the way, and being started. There can be no doubt of ultimate victory for the American even if it be at the price of the complete extermination of the Philippines. How long the sickly season will delay, or whether the push and dash of the Americans will secure it at once, cannot be seen, but the result is inevitable.

—Opening week in millinery circles is always a notable one, and attended by a great deal of gossip and chatter. Who has ordered the hat or that hat, whether it will become here, and those and other questions present themselves for the consideration of the fair sex.

Some women see a hat they like, try it on and take it without looking further, and they are much more liable to be asked than the woman who runs a millinery, spends hours examining each hat and returns to one she really "loves towards," at first, only to find that some one else has captured it.

That is the most unkindly of all. The most amusing thing is the woman who wants a hat just because Mrs. Jones has one like it and looks so nice in it. Possibly Mrs. Jones has a face, figure and style to make her hat a thing to make a man, but that makes no difference. She'll insist on having that hat and wearing it, looking like a fright, instead of leaving the matter to the taste of the milliner who has made a study of adapting styles to faces and knows exactly what she needs.

FOR GOVERNMENT.

P. WAT. HARDIN.

Subject to the action of the Democratic State Convention.

The Interstate Odd Fellows Association will meet in Paducah on April 26th.

The Fourth Tennessee volunteers will be mustered out about the 1st of April, says the Adjutant General.

Gov. Bradley has decided to move to San Francisco, Cal., to practice law at the expiration of his term. The Governor makes this announcement.

McKINLEY and Roosevelt for the Republicans, and Bryan and Selig for the Democrats, are the next Presidential tickets, favored by many politicians.

The horror of the Windsor hotel burning has never been surpassed at any place. It is criminal to maintain such death traps and if laws were properly enforced they could not exist. It is only after its too late that the real character of such buildings are known.

The Tennessee legislature is in session the matter of judicial reform, and many judges and attorneys are to be removed. In order to prevent defeat by united opposition, separate bills have been prepared for each case. At least six judges and as many attorneys will be legislated out of office.

ACTING Gov. Worthington, in pardoning a thirteen-year-old boy who had been sent to the penitentiary from Pike county, said that as long as the power remained in his hands, and until the State provided a suitable reformatory, he would turn all such prisoners out as fast as the courts sent them to the penitentiary.

The legislature of Arkansas has enacted the most important piece of legislation ever before them. It was a bill that all the members be vaccinated. The bill was passed and the law executed on the spot, each member lowering his brandy arm to the lozenge, and receiving his inoculation of the cow pox.

J. D. WATSON, of Graves county, ex County Clerk, and a very popular gentleman, is given out as a candidate for Senator from this District. We had hoped that Ed. Walker would have a clean field, but Watson's candidacy promises a nip and tuck race.

The supply of garden seed for distribution by the State Agricultural Bureau has been exhausted. The Commissioner informs the COURIER that the report of the purchase of \$10,000 worth of seed was erroneous, and that the sum actually expended for this purpose was only \$728.75.

Editor's Latest Intentions.
Edison is working on a new invention for transmitting pictures by wire, and says it will be a success. He says that there is no reason why man should not live to the one hundred years old, and that it can be done by supplying lost tissues from the lower animals by transfusion and engrafting. If he will turn his attention to that he will make more money than he will ever need. The possibilities of keeping men and women up to the full enjoyment of the pleasures of life before old age has pulled them in the most attractive one that could be imagined.

Our Allotment Valley.

The prospectus of an elaborate and valuable literary work by Mr. Frank H. Tompkins is at hand. The title of the work will be "The Riparian Lands of the Mississippi River—Past, Present, Prospective." The author gives as his purpose:
"To encourage the growth of the popular view that the general government should take immediate control of the levee system to perfect it."
"And, to give the people of this fertile region a luminous description of their beautiful valley as it exists today and a heroic picture of its future. It will trace the levee system from its inception and improvement of the valley in pace with it."

J. W. Morris, Circuit Court Clerk, is in Frankfort with E. T. Tyler, representing the county before the State Equalization Board.

The County Commissioners of the First Congressional District are to meet in Paducah today. County Attorney A. Lindsay will preside.

The object of the meeting is not stated. The COURIER has received a new selection of beautiful job type, and more choice and others, including letter heads, bill heads, envelopes, etc., are asked to give us their work. We ask it on merit and price.

The COURIER during its long journalistic life has never used a patron. Indeed, with few exceptions, all they have been asked to do is to state that we shall have to take exceptions. Those few might at least explain "why."

A Western editor was writing the motto "We tell the truth" at the head of his paper. The other day, however, he was compelled to discontinue several gentlemen who objected to the truth being told, and as a consequence the motto was suppressed and the following notice was printed: "Until we recover from injuries recently received, this paper will just like the rest of them."

An exchange says: Dissolve twenty pounds of common salt and ten pounds of nitrate of ammonia in seven gallons of water. Pour this in quart bottles of thin glass and you have five quarts of liquid in each bottle. The bottles should be tightly closed to prevent evaporation, and when there is a fire they must be thrown in near the flames, so as to break and thus liberate the gas contained, to effect the desired result.

The man who makes a success of an important venture never waits for the crowd. He strikes out for himself. It takes nerve. It takes a great lot of grit. But the man that succeeds has both. Any man can fail. The public admires the man who has enough confidence in himself to take a chance. These chances are the main thing after all. The man who tries to succeed must expect to be criticized. Nothing important was ever done but the greater number consulted previous doubted the possibility. Success is the accomplishment of that which most people think can't be done.

THE ONLY EXCLUSIVE MILLINER.

Mrs. Len Harper respectfully attracts your attention to the fact that she has for her SPRING MILLINERY GOODS, rare and choice selections, and made with special hope to please the taste and judgment of friends and customers.

She also pleased to announce that she has the services of Mrs. Jennie Hall, an accomplished Modiste and Dressmaker, who will give special attention to this department.

Convicts on County Roads.

[From Henderson Gleaner.]

The Hickman Courier thinks the discussion of good roads has given way to the talk about bad roads, which seems to be the rather than their exception. So far the GLEANER has yet to hear of a better solution of this vexed question than that offered by it, namely, that in all the counties in the State the convicts be put to work building roads, part of each expense to be borne by the State and part by the counties thus employing same. If there is a better plan the Gleaner would like to hear of same.

A STATEMENT OF CONTRASTS.

We gave Cuba her liberty, and we bought Spanish sovereignty in the Philippines for \$20,000,000. Gomez is a second George Washington. Aguirre is a second Garibaldi. We are sending millions of dollars to the Cuban soldiers to give them a start in life; we are sending millions of cartridges to the Philippines to give their long suffering inhabitants a free transfer in the happy land. In the Western Hemisphere we are the good samaritans; in the Eastern Hemisphere we are the iron-handed and heartless oppressor. Great is imperial! "Who will haul down the flag?"—Exchange.

THERE ARE OTHERS.

Every editor has received them says as exchange. The postman sends them to the editor. The postmaster is not to blame. For instance, there was a man by the name of—well, says Tim Spriggs, who sent us three notices to stop his paper, he didn't want us any longer. We wondered what was the matter. Upon examining the subscription book we found Tim short \$10. He never had paid a cent and yet he stopped his paper as a matter of economy—to us. He didn't want it to cost any more by him. A few days afterwards Spriggs was at church and his melodious tenor rang out loud and clear in the old singing song "Jesus Shall Reign." He might have been mistaken by his earnestness and us. So the next day we sent him a receipt in full begging him pardon for not saying that he had made an assignment of his liabilities to Lord—Murray Ledger.

TO CHANGE THE COUNTY LINE.

The following bill has been introduced in the Tennessee Legislature by Hon. J. H. C. Hatchinson:

An Act to Change the Boundary Line between the Counties of Union and Lake.

Section 1. Be it enacted by the General Assembly of the State of Tennessee, That the boundary line between the counties of Lake and Union shall be and is hereby changed as follows: Instead of the present boundary line between the two said counties, the following line shall be and is hereby constituted the boundary line between Tennessee and Kentucky, and thence west with said State line to the present boundary line between Lake and Union counties, where it intersects the boundary line between Kentucky and Tennessee.

Equally Before the Law.

Mrs. Martha Place is to be executed in Sing Sing prison, New York, sometime during the coming week. The crime for which she is to suffer the death penalty is the murder of her step daughter. The crime was a horrible one and without an apparent extenuating circumstance. The question of her sanity has been passed on by experts and her entire responsibility vouchsafed for. Gov. Roosevelt, in declining to extend clemency, said the only reason he could offer for such a course would be to declare that no woman should ever suffer death penalty for murder.

The Clinton Democrat says the people of Columbus and vicinity are looking for a remarkable crop of strawberries. There are about 700 acres of strawberries right around Columbus and a good crop means lot of money in circulation.

W. G. WINTER, of Clinton, Ky., says he has sold Plantation Chili Cure for many years and among the many children he finds the Plantation Chili Cure is the most reliable remedy for the ordinary ailments, which only stops child for a short time. It removes the cause, and the cure is permanent.

A Card.

To THE EDITOR:—Mr. and Mrs. J. W. White, living in Niscom, opposite Hickman, have the sympathy of many friends in the loss of their little son who died on the 26th inst. of Meningitis. He was a sweet little child, aged 11 months and 11 days. He was the child of loving parents. A Friend.

TRIBUTE OF RESPECT.

HICKMAN, KY., March 26, 1899.
To the Officers and Members of the M. E. Sunday School:—

We, your Committee, appointed to attend the funeral of the dear brother ALEX. E. CHURK, respectfully submit the following:
Whereas, It has pleased our kind and merciful Heavenly Father, in the exercise of His wisdom, to take from our midst our beloved brother and Sunday School companion, ALEX. E. CHURK, therefore, be it

Resolved, That it is with profound sadness that we record the death of our young friend, who, in the morning of a bright, vigorous and joyful manhood, has been taken from this family and friends.

Resolved, That we humbly bow to this sad disposition of an all-wise Providence, recognizing in it a fatherly message from a loving Father to a faithful servant, bidding him to higher home and a more glorious companionship.

Resolved, That in the death of ALEX. CHURK our Church and Sunday School has lost a zealous member, his family a dutiful son and affectionate brother, and the community a youthful citizen whose daily work and conversation was well worthy of emulation.

Resolved, That our heart-felt sympathy be extended to the bereaved family of our departed friend, and that we commend them to the tender care of Him who death all things well and good has promised to comfort the hearts of the sorrowing children.

Resolved, That the Secretary be instructed to transmit to the family of our deceased brother a copy of these resolutions, and that they be spread upon the records of the school, and published in the HICKMAN COURIER.

"Times well he did not let him live a day was wasted here. When the Master's glory was needed, he was ready to go. He was a true and faithful servant of his Master, and his death was a great loss to his family and friends."

Mrs. MAURIE HANDLE, E. D. TURNER, Secy. and Treas., J. A. G. WEAVER, Com.
